

We are promoting the collection and recycling of used home appliances!

Used small home appliances are an important resource.

We ask for your cooperation in recycling rare metals (rare metal) and reducing waste.

Items to be recovered

Items collected in collection boxes

Item that enters the input port of the collection box(25 cm x 15 cm)
(example)

Subsidies for the purchase of garbage disposal containers

It is said that about 40% of household combustible waste is kitchen waste, and about 80% of kitchen waste is water. You can reduce the amount of garbage by draining the water. In order to promote the reduction of food waste, the town of Tadotsu is subsidizing the purchase of "Garbage disposal container".

Target of subsidy

Those who have an address in Tadotsu-cho and purchase and install garbage disposal containers are eligible.

Type

Type of garbage disposal container	Subsidy details	Subsidized base
Electric type	Up to 20,000 yen within 50% of the purchase price	Up to 1 unit per household
Other than electric type	Up to 3,000 yen within 50% of the purchase price	Up to 2 unit per household

※ There is a limit to the subsidy, so please check the town's website or contact Tadotsu Town Recycle Plaza before purchasing.

(Caution) If you use a grant, you will not be able to receive a subsidy for pre-purchases before applying.

- The third Sunday of every month is the day of environmental beautification. Let's all make the town beautiful.
- On the third Sunday of every month,
we accept **recyclable waste**, **combustible waste**,
and **non-combustible waste** from households.

Place : Tadotsu Town Recycle Plaza
Hours : 8:00 am to 11:00 am

The waste collection business of Tadotsu Town is entrusted to the following companies, except for some of them.

委託業者 : 多度津町西港町 37 番地 : (有) 宮武清掃社

Commissioned contractor : 37 Nishiminato-cho Tadotsu-cho Miyatake Incubation Co., Ltd.

Please note that the collection time may be different from before.
