

How to take out bulky waste

- Bulky waste is waste that does not fit in the large size of a designated combustible or non-combustible bag (Excluding recyclable waste), such as a chest of drawers, futon, or desk.
- Specified household equipment waste (Air conditioners, TVs, refrigerators, freezers, washing machines, clothes dryers) and personal computers cannot be collected at the collection site.
- If there are large or heavy items or a large amount (Items and furniture 30 kg or more, or 1 m or more and 2 m or less each in height, width and length.), please bring them to the Tadotsu-cho Recycling Plaza. (If it exceeds 30 kg, a handling fee will be required.)
- Cut a pruned tree trunk with a diameter of 5 cm or more and less than 10 cm and a length that does not fit in the designated bag (large) within 1 m in length and tie it with a string. The diameter of the bundle should be within 30 cm. However, if they are cut to a length that will fit into a designated combustible bag, please put them in a designated combustible bag for disposal. (Twigs and leaves with a diameter of less than 5 cm should be put in a flammable designated bag and taken out)
- Please tie blankets, futons, carpets, etc. one by one tightly in a roll.
- Umbrellas (If there are several, please tie them with a string and bundle them.)
- Cut the tatesu, sudare and goza to less than 1m and tie them with a string. (If the size of the item can be put in a designated flammable bag, please put it in the designated flammable bag and take it out.)
